

Global CALL

There are many websites for those wishing to engage more deeply in research and other activities in the area of Computer Assisted Language Learning. The collection of links in this document gives you a sample of useful sites, all of which were active at the time of writing in February 2008.

Associations, online publications, forums, networks, advice and information

CALICO: Computer Assisted Language Instruction Consortium: A well-established association specialising in the application of technology to language learning.

CALL_EJ Online: The online journal of JALT, the Japan Association for Language Teaching.

CASLT The Canadian Association of Second Language Teachers: Interesting articles on technology and second language teaching.

CALL Resources, University of Wisconsin: A resources portal with links to language-specific CALL resources.

EUROCALL: The European Association for Computer Assisted Language Learning promotes research, and the establishment of good practice in the use of ICT for language learning. On its site you can find online articles from its journal, Special Interest Groups (SIG's), and links to resources and news.

E-learning Europa: A portal established by the European Commission to promote the use of multimedia technologies and Internet in education and training.

ECML European Centre for Modern Languages, Council of Europe: There are links to resources, publications and the many activities undertaken by the ECML in promoting the learning of languages.

ICT4LT : A comprehensive site on ICT issues in the teaching and learning of modern foreign languages. Here you will find links to many leading associations and journals plus news of current developments and the latest research.

The ICC – The European Language Network: The European Language Network brings together people from different countries and cultures in joint activities and projects.

Language Learning and Technology, University of Hawaii: An online journal for second and foreign language educators.

NFLRC National Foreign Language Resource Centre, University of Hawaii: New Technologies and Language Learning online publication and case studies. Focus on less-taught languages.

Special Educational Needs: David Wilson's excellent site contains much valuable information and links.

Technology Tips of the Month, Oregon State University: Tips on software, email, web searching and more.

WorldCALL: WorldCALL is a worldwide grouping of CALL associations, embracing associations such as EUROCALL, CALICO and IALLT. See the WorldCALL website for details of conferences.
